

# Frontend Developer Angular / CSS in French Tech Start-up

## New Delhi - starting March 2016

### **Role:**

- Travel web marketplace platform development
- Communication platform development for our clients and partners

The position will be based in Delhi and will be under the supervision of Planet Ride CTO.

### **About the team:**

Planet Ride (planet-ride.com) is a French company with an IT department based in Delhi, India. We are a road-trip linking platform, connecting passionate travellers with local agencies proposing motorized trips (motorcycle, 4x4, snowmobile, buggy...) all over the world. Our team consists of four French entrepreneurs from the tourism industry who are passionate about travelling and road trips. In order to improve communication and information management with our partners, Planet Ride is developing a web application with integrated communication tools.

### **Job responsibilities:**

- Participate in the creation of the new communication platform for our partners
- Develop a rich angular 2 front end for our business application, integrated with our own REST API
- Improve and enhance the web marketplace planet-ride.com
- Help improve UX of our existing application, and assist us in the creation of new ones.
- Assist Marketing team to create new advertisement support

### **Why join us?**

- Explore, develop and integrate latest technology, under the supervision and guidance of our French CTO: LESS, Angular 2, CSS 3, typescript, ES6 ...
- Improve your communication, development and architecture skills with our multinational team
- Work with a fast growing e-tourism start-up

### **Skills/Qualifications:**

- Software engineering / technical background with 3 years' experience
- Strong knowledge of source code management with git
- Previous experience with Angular
- Comfortable with Adobe Photoshop or Gimp
- Capable of designing Mock-ups, and then to create the corresponding HTML / CSS

### **Pay range:**

40,000 to 80,000 INR per month - note the salary range may change as per profile.
